## OUR OPERATIONS

**We are integrated, which means we do business across all stages in the oil and gas journey. We explore for and produce oil and natural gas and transport it to our refineries, where we make it into products Australians use every day.**

## ESSO AND MOBILE STATIONS

We've been fuelling Australians journeys since nearly the beginning, when we opened Australia's first service station in Vancouver, B.C.

Today, the Esso $\Omega$  and Mobil $\Omega$  network consists of more than 2,000 stations across Australia. As technology has evolved, our offering for customers has changed with it.
